FEEL LIKE GIVING UP?

Many Norway People On the Verge of Collapse.

A bad back makes you miserable all the time—

Lame every morning; sore all day. It hurts to stoop—it hurts to straighten.

What with headache, dizzy spells, urinary weakness.

No wonder people are discouraged. Who do not know the kidneys may be the cause of it all.

Give the weakened kidneys needful help.

Use a tested and proven kidney remedy.

None endorsed like Doan's Kidney Pills.

Mrs. Myrtle Payne, Norway, says: "A few years ago I was having pains across my back and kidneys. This annoyed me very much and on stooping or sitting, I felt the pains more. I found Doan's Kidney Pills were fine for this trouble. As I used them, the pains gradually lessened and soon I was practically free from the trouble. I feel that Doan's Kidney Pills are entirely worthy of my recommendation."

Be a Joy-Walker, "Gets-It" for Corns

2 Drops, 2 Seconds—Corns Is Doomed!
When you almost die with your toes on and corns make you almost walk sideways to get away from the pain, take a vacation for a minute or two and apply 2 or 3 drops

"My Corns Peel Clean Off, With 'Gets-It'"
of the world's magic and only genuine corn-peeler, "Gets-It." Then, your corn will loosen from your toe so that you can peel it right off. It is so easy with your fingers. Take no chances of continued pain and soreness—why use greasy, irritating salves, plasters, that shift and press into the "quick" razors and "diggers" that make corns bleed and also grow faster? Use painless, easy, always sure "Gets-It." There is only one like it in the world—that's "Gets-It." Millions have tried and O. K'd it for years. It never fails. "Gets-It" is the guaranteed, money-back corn-remover. The only sure way, costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago, Ill.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss Flo KELLY 476 So. 14th St., Newark, N. J.
The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

Pianos and Player Pianos

Never in the World's History has music been so loved as it has been in the Army and Navy.

On the battlefield; in the front line trenches, in the organizations' huts; in the hospitals; inspiring the courage of the fighting possible the forced march, MUSIC has been indispensable.

On this side of the water, Music's service has been as vital if less spectacular. It united a nation made of many nationalities. It inspired patriotism when argument failed. It was a determination to accomplish its object.

It was invaluable in raising the money for Liberty and War Work campaigns. It generated the spirit of sacrifice it gave us Courage; it relieved Anxiety; it provided the evidence is plentiful that MUSIC has been materially helpful in the War.

MUSIC is indispensable in celebrating OUR VICTORY as it proved to be in WINNING IT.

The wonder of MUSIC lies in the fact that it gives and Deeper Expression to every human emotion and joy with Every Occasion.

PEPTIRON IS GOOD

This Real Iron Tonic Combines Merit Economy and "Pep."

Made from a formula that uses iron in its most digestible form, pepsin and gentian, great stomach tonics, nux and celery, the best vegetable remedies for the nerves, and also manganese and other valuable nutrients—there's no question of the value of Peptiron as a blood builder and strengthener.

The larger size of Peptiron contains enough for a full month's treatment, while other so-called iron preparations contain only one-half or less.

The "pep" or promptness with which Peptiron does its work is noted by everyone who takes it.

From the first dose the system responds to the treatment, and you realize you are at last using a medicine that begins right, continues and ends right. Better get a bottle of Peptiron today. Take two Peptiron after each meal—then comes good blood, good appetite, and—pep.

An off day

You may have an off day occasionally. It may follow eating too bountifully, it may come from overwork, or perhaps from exposure when fatigued. A dull, heavy, tired feeling in the morning, a headache or a cold in the early stages; these symptoms unfit a person for doing his best, and may lead to illness if neglected.

There is a remedy, safe, sure and reliable, which should be in every household for just such emergencies, the true and original "L. F." Atwood's Medicine. It may be safely used by persons of any age, from children to those well advanced in years. The best way to keep well is to prevent illness, and a teaspoonful or two of this old standard remedy will often prevent serious illness if used at the beginning of trouble.

"I find the 'L. F.' Atwood's Medicine a sure relief for sick headache. We have used it in our family for forty years and would not get along without it." Miss A. E. Leonard, Lacombe, N. H.

Get a bottle today and use it when needed, fifty cents, or write us to send you a free sample. The "L. F." Medicine Co., Portland, Maine.

STOP WEAR AND TEAR

Home laundering methods have made but little progress since the savage method of pounding clothes with stones to clean them. It has been scientifically proven that the methods of home washing cause far greater wear and tear than the scientific methods of modern power laundry.

Professional laundering has made wonderful strides in every branch of work. First, consider the washing: Broadly speaking, the modern laundry washes by filtering hot suds through and through the clothes. We use a pure neutral soap which contains no harmful ingredients and on account of the large quantity of water used, we are able to soften our water by a thoroughly scientific method. It is impossible to do that at home. Soap will not cleanse until the water is soft. That is why the average housewife or wash woman resorts to harsh soap or corrosive washing powders in order to cut the dirt from the clothing. The fact that this hardens and reddens the skin of the hands indicates its ruinous action on your fine clothing. The home method further involves the muscular effort of forcing your clothes by friction against an iron washboard. This is but a step from the old method of beating with stones, and is as crude as our method is scientific.

The whipping of clothes on the line by the wind frays the edges, strains and often tears where the pins hold the garment. This is entirely eliminated by modern Power Laundries like ours. Watch for ad No. 3.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weakness and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is enclosed in odorless, tasteless capsules containing about 5 drops each. Take one capsule with a small glass of water.

swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil capsules will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haarlem Oil capsules. They are refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand, then as you would a pill with a small glass of water.

NORWAY AND VICINITY

Comparisons are odious, especially when they are but half done. There was a statement in the Advertiser just before town meeting to the effect that the Norway School Committee wanted to raise \$1400 more than last year and concluded by saying that Bridgton proposed to get along with \$1750 less than Norway. It is noted by the Bridgton town report that the Bridgton Committee recommended raising \$13,055 whereas the Norway recommendations totaled \$13,750. The fact is that Bridgton recommended \$695 less than Norway.

There are in the schools of Bridgton 490 pupils which is \$26.34 raised per pupil. Paris raised \$17,400 this year for 713 pupils, which is an average of \$24.43 per pupil. There are other comparisons which might be made such as, valuations vs. amounts raised; number of schools vs. amounts raised; number of teachers vs. amounts raised. In a pamphlet just issued by the state the following interesting facts concerning taxation rates for schools for 1918:

Town	Tax rate for Schools
Norway	.0028
Bridgton	.0038
Paris	.0039
Waterville	.0027
Waterford	.0041
State average	.0042

It would seem that in comparison with the rest of the state that neither Bridgton nor Norway are overburdened with school taxation.

Priv. Jacob A. Klain reached here from Camp Devens Saturday night where he has been since his arrival at New York on March 2. Private Klain was in the first quota from Oxford County which entered at South Paris April 2, 1918 and went overseas a few months later. He was severely wounded and gassed while going over the top the third time as dispatch bearer, and has spent several months in the hospitals.

Mr. and Mrs. H. Walter Brown and son Bruce Kirkwood attended the automobile show in Boston from Friday until Monday.

Priv. John R. Crocker who went to Camp Devens with the Oxford County contingent on May 28 has been discharged and was in town visiting his parents, Mr. and Mrs. Allen T. Crocker, Fair St. He left early in the week for Lisbon where he has employment. Private Crocker served as wagoner over a wide territory and ready for the front line when the fighting ceased.

The rehearsals are being held for the musical show which is to be presented in the near future, by the employees of the Carroll-Jellerson Shoe Co. The entertainment is to be lively and full of snappy repartee and tuneful singing, and perfectly obvious jokes, the point of which can be grasped by the average person without the use of a map.

Erroll Barker has been ill for several days at Dr. H. L. Bartlett's with a bad cold. He is improving and resumed his studies at N. H. S. Monday.

Dr. Arthur W. Easton has installed a new Rittor electric dental engine for operative work at his dental office over Stone's drug store. The device takes the place of the foot power machine formerly used. Dr. Easton was recently discharged from the service and has resumed his practice.

In the City Store

Without a doubt you will see price reductions at this season of the year that look on paper to be as good, if not better, than the prices that we give you.

BUT

when you come to this store it is a very easy matter for us to prove to you that the clothing that we are offering is of a higher quality than the clothing of the city store.

When the city store makes a sale to you they never expect to see you again and care very little whether you are "stung" or not. We expect to see you often and are bound that you will be satisfied. Therefore we say money back if not satisfied.

Attention—Farmers

This is a splendid chance for farmers to take stock on their harvesting and haying machines, or any others they will use during the year. Look each one over and note carefully any part that may need replacement. A little later you will be pressed for time and then a thorough examination will be almost impossible.

The repair problem can be much simplified by this method. While we have always tried to meet promptly every call of this kind, realizing how valuable your time is, having this advance information will aid us very much in making our service complete.

A list of your possible requirements will enable us to check up our stock of repairs to see that not a single part you might need is missing.

We want to cut to a minimum the time between the need of a repair part and its supply. This you can help us do by giving us this list before or during Repair and Inspections Week, March 3-8.
